

Adding to VoiceThread – Student Guide

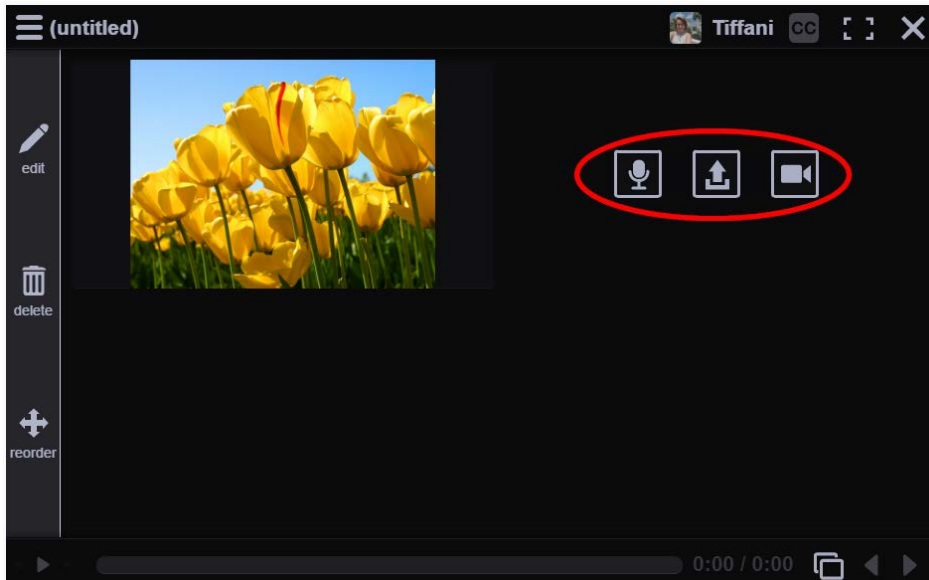

1. Locate the VoiceThread link in your D2L course. Select the layered squares at the bottom right hand of the page, which allows you to view all the slides in the thread.

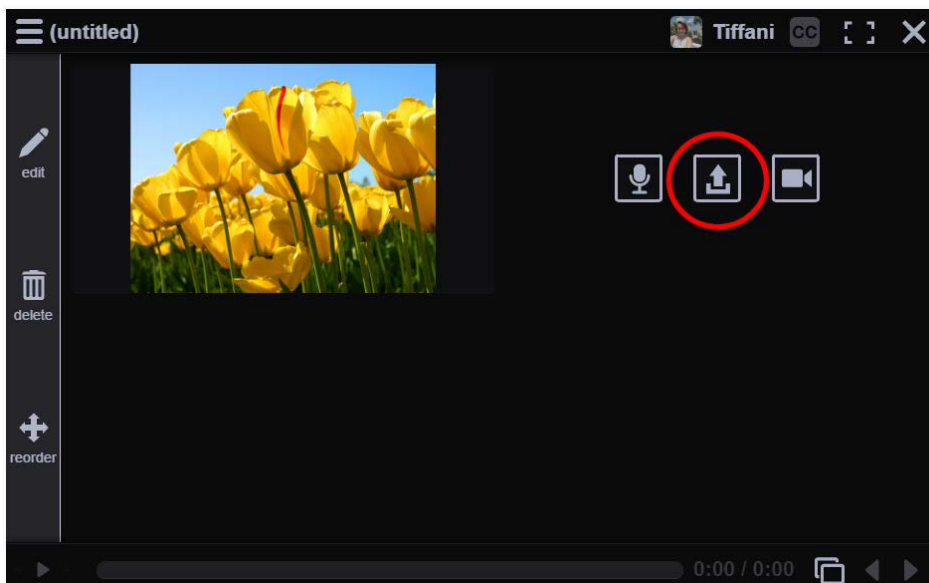

2. Select the plus sign on the screen to see your options.

3. You have the option to record audio, upload files, or record video.

4. Select **upload file** to locate the image, video, or document that you would like to add to your voice thread.

5. Locate your image, video, or document and select open to upload it to voice thread.
